Walton-Verona Stakeholders:

As you are aware, we are in the process of building a new Intermediate School at our Athletic Complex in Verona. Several large trucks will deliver equipment and materials to the complex as construction progresses. In addition, there are multiple pieces of heavy equipment on site. To protect the physical safety of all stakeholders, I have closed the complex to the general public. While I understand that it has been common for community members to walk around the parking lot for exercise, that can no longer happen. I respectfully request that all members of our community honor this decision.

**As a reminder, the Athletic Complex is closed to the general public Monday through Friday from 7 AM until 5 PM.** Our regular athletic events will continue in the evenings and on weekends.

While I realize that this is an inconvenience for some, the long-term improvement for our students, district, and community will be well worth it.

Sincerely,

A handwritten signature in black ink that reads "Matt Baker".

Dr. Matt Baker  
Superintendent
